

# FAVORITE COLOMBO THIRD

Dick Called  
In Help To  
Decide This

EPSON DOWNS, England, June 6.—Forgetting itself of a smashing uphill drive to the finish line, Windsor Lad upset the dog in the 15th running of the Derby today, winning by a length, while Colombo, the favorite, was well beaten in third place.

Windsor Lad finished the mile and a half over a lightning-fast track a length in front of the French-bred Eton, who beat out Colombo, the hottest favorite in years, by a neck. The winner raced just off the pace until the final drive, when he surged in front with a burst of power that defied all opposition.

Colombo, Lord Glenly's colt that started as long as 2 to 1 and never before had been beaten, went wide going into the final stretch, but was nevertheless easily felled, and was never in front.

Windsor Lad equalled the track record of 2:24 set by Hyperion last year.

The King and Queen were on hand for what turned out to be one of the finest races in the 154 years' history of the turf's blue ribbon event.

The race was run over extremely hard going. Nineteen went to the post, with Colombo strong favorite at slightly less than 2 to 1.

**NO ONE ASKED RACE**  
Windsor Lad had been third or fourth choice, behind Colombo, Eton and Underwood.

More than half a million people were stunned by the defeat of Colombo, who had been called the best colt in England since the 1890s. He was a 10-year-old, bred in 1923, and had won 11 of 15 races, with odds having never shortened sharply overnight.

Windsor Lad had a length margin at the finish of the grueling up-and-down mile and a half, the historic Derby course. In fact, he was a 10-year-old, bred in 1923, and had won 11 of 15 races, with odds having never shortened sharply overnight.

# FRANCE TAKES OVERTURE TO BRING LITLER BACK IN LINE

FIFTY-FOURTH YEAR—VOL. XXII, No. 133 WEDNESDAY, JUNE 6, 1934

## FRANCE TAKES OVERTURE TO BRING LITLER BACK IN LINE

### BARTHOLO HAS NEW PLAYERS NEGOTIATIONS

GENEVA, July 6.—The disarmament tangle brightened up a little today when it was frankly indicated France is ready for negotiations looking to getting Germany back in the conference.

Louis Barthou, French foreign minister, before the steering committee explained a draft resolution on procedure which he introduced provided that no governments may keep on with private negotiations.

This, he said, had a bearing on "conversations" any government may wish to undertake—quite frankly, that means Germany. France must not attach any conditions to Germany's return, and Germany must not attack any conditions.

Arthur Henderson, president, said privately when the committee had adjourned to Friday that it had been an encouraging day. Barthou, with whom Henderson had a heated argument yesterday, produced a plan of procedure himself and did his best to recreate a friendly atmosphere.

The French plan, which would place the conference on a new basis, was the subject of much discussion. The French plan, which would place the conference on a new basis, was the subject of much discussion.

## Break-Neck Speed Is Grim Reality Here

WITNESS LAD'S VICTORY  
Brings \$604,800 New Money to U.S.

NEW YORK, June 6.—A waitress and a letter carrier each won \$50,000 when Colombo, Lord Glenly's colt and a favorite, finished third in the Derby at Epsom Downs today.

Both had refused offers of \$50,000 for their ticket, hoping the favorite might come in first and win \$152,100 for them, the amount of the prize money.

# C.N.R. AIDE DECLINES TO MELMER

FIFTY-FOURTH YEAR—VOL. XXII, No. 133 WEDNESDAY, JUNE 6, 1934

## Trustee Fullerton Optimistic of Roads' Future; Will Not Clash With Beatty Appeal for Consolidation

OTTAWA, June 6.—It would be improper for the trustees of the Canadian National Railways to enter into any controversy over the suggestions for amalgamation publicly advanced by E. W. Beatty, president of the Canadian Pacific, in the opinion of C. P. Fullerton, chairman of the trustees, expressed before the House Committee on Railways and Shipping today. Furthermore, Mr. Fullerton observed, the act of 1933, had expressly provided that nothing in the act would be deemed to authorize such amalgamation.

The cooperation efforts up to date had yielded a saving estimated at \$1,260,000 in year's joint economies. Projects of cooperation to reduce duplication now under study involved abandonment of approximately 2,100 miles of line in different projects, while Canadian National economies contemplated further abandonment of 1,500 miles of light traffic lines in various parts of the country, which had no other lines.

**TELLS OTTAWA**  
Mr. Fullerton made his second appearance before the committee today and presented a brief covering three phases of the railway problem, co-operation, capitalization and amalgamation proposals.

The cooperation efforts up to date had yielded a saving estimated at \$1,260,000 in year's joint economies. Projects of cooperation to reduce duplication now under study involved abandonment of approximately 2,100 miles of line in different projects, while Canadian National economies contemplated further abandonment of 1,500 miles of light traffic lines in various parts of the country, which had no other lines.

## FRANCE WILL DUMP CHEAP WHEAT IN U.K.

PARIS, June 6.—Reports were current here last night France is prepared to export more than 1,500,000 bushels of wheat at a price of slightly less than 50 cents a bushel. The wheat, it was said, would go to the United Kingdom and Denmark.

Usually well informed sources at a level in the French government would be asked to maintain a minimum domestic wheat price of 49 cents a bushel, after the yield of the current crop.

It was reported 500,000 metric tons of wheat would be sold to the United Kingdom at 28 francs (currently \$1.25) a quintal, that would place the price at 49 cents a bushel, \$1.25.

In addition the government would grant an export bounty of \$56,000.

The amendment to the Criminal Code replacing the present section which gives a sweepstakes or lottery prize to the informer will be brought down shortly.

The government's proposal is that the prize shall be subject to confiscation, but shall go to the crown.

## SCORE IS SENT TO HOSPITAL IN COMMUNE ROW

WINNIPEG, June 6.—More than a score persons were injured when a group of the Canadian National party and members of the Communist party gathered in a hall here early today. Police made several arrests.

Fighting broke out when members of the latter group tried to break up a meeting of the Nationalists in the downtown section. Police were immediately rushed to the scene and order was restored after a battle.

Of those injured, 13 were rushed to hospital by truck, their faces streaming with blood. Some were badly injured. The demonstration called police emergency before reserves could be rushed to the spot.

## Golden Clouds of Dust Floating Over Country Adjuncted Work of Seismic Disturbances.

BOMBAY, June 6.—The world may talk of gold standards and gold hoarding but in India it has been raining gold.

Outlying districts in which seismic disturbances were felt last week, reported a shower of fine powdered gold and told stories of golden clouds and gold floating over the countryside.

The secret of the color of the dust was revealed yesterday when scientists analyzed samples and discovered that the dust harbored fine particles of the precious metal. The dust clouds came as a result of the seismic shocks which the scientists suggested forced into the air delicate particles from deep rock fissures.

THE TIMINIES SECRET SCARDS

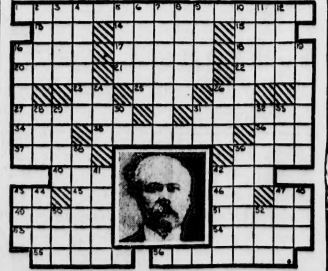

Old Jack Spratt said, "All right, now vote. Before you there are lots and lots of sandwiches for you to eat. I hope they taste just fine. Just keep on eating, while they last. Be careful, though, don't eat too fast. The reason I've good health is 'cause I take my time with mine." "Oh, tin to be," Spratt's house and will get some milk. It will taste like a blanket," Goldy cried.

good, I'll bet." She hustled to the kitchen and came back with several quarts. "Wee Duncy started stuffing and Jack said, "Lad, can't you understand that if you eat so fast, 'twill make you feel all out of sorts!" "Go, I have had my fill," Son Duncy said. "Well, thanks so much. We really never have had such good sandwiches." And then he said, "That cradle's going to fall, I fear. We'll hold the blanket tight down here and save the baby from a crash. At least it can be tried." It didn't take wee Duncy long to get the blanket. It looked strong. The Timinies stood and held it just a short way from the ground. "One, if we fall, 'twill be a shame," said Scully. Then the cradle came tumbling from the tree limb, and it landed safe and sound. (Duncy gets into a terrible mess in the next story.)

# Bi-lingual Banknotes Bother Commons Committee

## GARNET WHEAT GRADING BILL DUE THURSDAY

House Will Immediately Tackle Controversial Subject

OTTAWA, June 6.—The commons agricultural committee will reach a decision on the bill to exclude Garnet wheat from the No. 2 Northern grade on Thursday, and will immediately report the bill to the house of commons. This was done yesterday when the bill was passed.

The controversial aspect of the bill was again shown when P. G. D. Jones, of the Commons, moved a sub-committee be appointed and be allowed to take its report.

A sub-committee was out of order, M. C. Sinn, Commons, Haidward chairman, ruled.

Liberal and Progressive members expressed an amendment that will make separate grades for Garnet wheat. Under the bill as it stands, grades of varieties excluded from number two Northern is left to the grain standards board.

Without history grades for Canada there is nothing to prevent this variety being dumped in the Commons.

Separate grades for Garnet means the killing of it, Hon. W. R. Meighen, Commons, said.

Meighen's Lib. Minister of agriculture, protested. The bill is passed, and the back is being passed to the grain standards board. The former minister of agriculture has bitterly opposed the proposed bill since it came into the commons stage.

## Medico Cautious About Discovery

OTTAWA, June 6.—Dr. C. E. Dolman, research associate at the Commonwealth laboratories, last night said the antimony developed for treatment of syphilis, which could be used for the treatment of certain venereal diseases, was unable to cure the disease by the use of the antimony developed by the doctor.

He explained he had not received detailed reports from the boy's physician.

"It is hardly correct to say that the reported cure of the child of the antimony developed by the doctor is making medical history," Dr. Dolman said. "People should not be led to regard the antimony as a definite cure."

## Manufacturers To Meet Friday

MONTREAL, June 6.—The past industrial year and chart a course for the next, members of the Canadian Manufacturers Association met here Thursday and Friday in their 61st annual convention.

At the annual dinner Friday, Premier R. B. Bennett will be the speaker.

Planes are being made fast enough to cover the newly scheduled airmail route from New York to San Francisco in 20 hours flying time.

## Zuelzer Is Expelled By Nazi Order

PROF. GEORGE ZUELZER arrives at New York from Germany to demonstrate a discovery, a hormone, called eutecton, which he claims, is of benefit in cases of anemia, pediatric, high blood pressure and cancer. Nazis expelled him because of his race.

WASHINGTON, June 6.—A group of unionists asked yesterday that President Roosevelt submit steel and labor leaders "to put their knuckles under the same table" in a conference to "iron out the troubles of that industry."

Even as they would not accept a proposal being worked out by Hugh S. Johnson for a separate labor board for the steel industry and that, failing a presidentially called labor-labor conference.

"Three hundred thousand steel workers stand ready to go to shut down their plants so it will be quite enough to talk."

Even as these representatives of the Amalgamated Association of Iron, Steel and Tin Workers spoke, word came of a proposed "March on Washington" by a group of steel workers designating themselves as representing the "rank and file" and led by Earl J. Forbeck of Pittsburgh.

The March, said Forbeck, would come unless President Roosevelt would prohibit the use of government property for the march.

British Sportsman On Quick Trip To Maligne Lake

BANFF, June 6.—Enjoying a brief respite from his long train journey across Canada, Brian Guinness, son of Lord Moyne of England, and a director of the British Pacific Trust Company, and who is with Lord Southborough, party on their way to the coast, took a quick trip to Maligne Lake country where the party remained in Jasper. He fell with the West, guide, and Fred Brewster on Monday, morning to the end of Medicine Lake, and then hiked the eighteen miles to the Maligne lake shore, where he spent the night, returning just in time to take the train on Tuesday for Vancouver.

Mr. Guinness is a notable sportsman of England and enjoys hiking and climbing. He was most enthusiastic over his Maligne trip, which constitutes the first of the season, and perhaps a record trip.

He made a long, unusual amount of game was photographed and the trip was a success.

He had a head about as big as a football and shaped something like a horse's head. It turned its head around several times—all the way around.

It did a few diving stunts, then disappeared. Klamath.

## Tremor Follows Freck Storm

SAN FRANCISCO, June 6.—Slight earthquakes were felt today in the San Joaquin valley about 150 miles, but no damage was reported. The tremors followed a freak rain with thunder and lightning.

Planes are being made fast enough to cover the newly scheduled airmail route from New York to San Francisco in 20 hours flying time.

## STEELWORKERS THREAT MARCH ON CAPITAL

Demand Roosevelt, Not NRA Providing Bargaining Legislation

WASHINGTON, June 6.—A group of unionists asked yesterday that President Roosevelt submit steel and labor leaders "to put their knuckles under the same table" in a conference to "iron out the troubles of that industry."

Even as they would not accept a proposal being worked out by Hugh S. Johnson for a separate labor board for the steel industry and that, failing a presidentially called labor-labor conference.

## They're Swinging Right Into Swim

Dazzling the photographer with smiles, these three fair swimmers from the Pacific northwest Natatorium Club, Portland, took time out during training for the national junior letter swim championships at San Francisco, yesterday morning. Left to right: Maxine Seebacher, Vivian Shanfelt, Lois Murtin.

Manitoba Passing Marketing Act

WINNIPEG, June 6.—Enabling legislation to put into operation a natural products marketing act was given first reading in the Manitoba legislature last night. Supplementing to the Dominion Marketing act, the bill, introduced by Premier John Bracken, gives the government power to cooperate with any marketing board or agency established by the Dominion government. The measure will be given second reading today.

## Operation On Siam King's Optics

LONDON, June 6.—The "Sketch" says King Prajadhibok of Siam was successfully operated upon Tuesday to remove a cataract from one of his eyes.

## GERMAN STATE SERIOUS SAYS NOTED WRITER

Continued From Page One about a billion dollars. These countries had appropriated on the American market to an average value of something like 40. This, and the depreciation in the dollar, means that what America exports to Germany now is worth a billion dollars for Germany and has acquired for Germany 200 million dollars.

To add to the irony of the situation, the saying has been often used to subsidize German exports in competition with American and other manufacturers. With the prices of existing German exports falling, these subsidies are of little value, and the virtual certainty that any export interest in Germany will be drastically cut or made entirely inelastic to be used within Germany only, with the use of these subsidies, is not so much a restriction as it is a restriction.

The materials which new credit will be made new in Germany, would be, in fact, at any rate, into the manufacture of war supplies, and to build up warlike resources.

FINANCE EXPERTS

When the Scheidt plan became known, American commentators remarked that "German credit would have to finance German exports, and are now to have the dubious honor of financing Germany's rearmament." Will they accept that role?

To gain time, the German government has begun to limit imports. In fact, the limit on imports of copper and iron is among the most serious already under a similar monopoly, and the list is to be extended.

Many think, also, that before long all but essential commodities will be excluded entirely. Already certain raw materials are being rationed to the factories, and some observers prophesy that in the future the rationing will be carried to the consumer. Economists are even now predicting carrying forward the Nazi program in "the future."

These expedients may momentarily succeed in causing by their widening gap between imports and exports, and with a consequent general business activity. Every conceivable device has already been used, and will be used, to secure employment as widely as possible.

But the program of making work and rearmament has not reached its limit. If business activity declines, the number of its loss will again appear. That is, the program will be a time, summer is in only one year, the first time a general dislocation in the national credit system is perceptible. What is in order to meet this situation, which means that "miserable democracy" Germany never compromised, that Germany must not be allowed to have rights to an unhampered "free market."

There is no need of thinking, but there is a need of action. It is not a question of Germany's right to a free market, but of Germany's right to a free market.

But a note of criticism now comes from the United States. The United States is not a free market, but a free market.

But a note of criticism now comes from the United States. The United States is not a free market, but a free market.

## SEPARATE CAMPAIGN ISSUES ENGLISH-FRENCH, MINISTER'S IDEA

Pershing At Another Kind Of 'Big Show'

OTTAWA, June 6.—The bank committee of the House of commons yesterday turned down an amendment which would have resulted in all bank notes of the new £100 bank being printed in both English and French. Immediately the committee then approved another amendment which would result in all bank notes being printed in both the English and French languages.

Have Ernest Lapointe, Liberal member for Quebec not, moved the first amendment, and argued that Canada would not be following European countries which sometimes have these languages on a single bill, if it issued bilingual currency.

He felt that the second amendment, which would have resulted in all bank notes being printed in both English and French, would result in a "big show" in the House of commons.

To have the printed all in French and bills all in English circulating simultaneously would be a "big show" in the House of commons.

In simplicity conditions, He admitted, however, that the amendment would not satisfy the provisions of Canada's constitution.

Oil Industry May Be Probed

OTTAWA, June 6.—The question of whether the Canadian oil industry will be investigated by the prime minister and his cabinet, is under consideration. Hon. H. A. Stevens, minister of commerce, informed the House of Commons yesterday.

Basinford, a British-born Canadian, recently received his first issue of postage stamps.

Reuchwey, officer from major upward, served in the old imperial army. They have not related the fact that Reuchwey, who was in the army, failed in his valor or duty.

Reuchwey, who was in the army, failed in his valor or duty. The nation is at least aware of the fact that Reuchwey, who was in the army, failed in his valor or duty.

**NOTICE**

**NOTICE**

In the Estate of Hector Ross, late of the Post Office of M.K.M. in the Province of Alberta, Lumberman, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named, Hector Ross, who died on the 20th day of September, A.D. 1933, are required to file with the undersigned, Messrs. C. G. & J. W. 507 First Building, Edmonton, Alberta, within the time specified, claims to 12 cents and 10 1/2 cents, respect per bushel.

Although there was a scattered means reported in Canadian wheat lands, England did not confirm sales.

The French wheat crop is expected to be smaller than last year but is still a large carryover which easily offset the smaller crop. It is expected that this country will import wheat from the following countries: Austria-Hungary and Czechoslovakia.

# DOGS ATTACK COAST GIRL

VANCOUVER, June 6.—Herriott

Elliott, 13, was under medical care yesterday after being severely bitten by seven dogs which attacked her as she was relieving her brother on his newspaper route.

A setter dog started to bark at her. Becoming frightened, she ran. The setter was joined by six other dogs, according to eye-witnesses.
